

NEW WINTER BLADE ADAPTOR

To make installation of our winter blades as quick and easy as the rest of CARQUEST's blades, we have designed a new universal adaptor, which accommodates all the most popular wiper arm styles. No longer will you have to use separate adaptors for side lock and hook/bayonet arms.

This new adaptor is being utilized on all 16" – 24" winter blades and comes pre-attached on 16", 18" and 20" lengths. The diagrams below show how easy installation really is.

SIDE LOCK

Push blade onto arm pin

Blade installed in seconds

HOOK

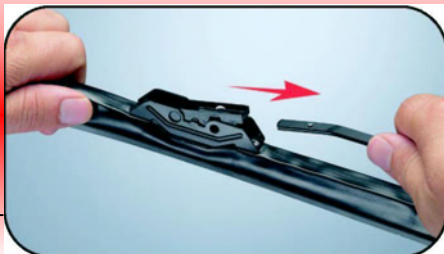

Pull blade into arm hook

Blade installed in seconds

BAYONET

Push blade onto arm until dimple on arm locks into hole in top of adaptor

Blade installed in seconds
